Executive Summary

The Youth Risk Behavior Survey (YRBS) has been administered to high school students in grades 9-12 in the South Heartland District, Nebraska during the fall semester of 2012 and 2014. This project has been primarily funded by the South Heartland District Health Department , while the State of Nebraska pays for administration in any state sampled classrooms. The Bureau of Sociological Research has conducted both the 2012 and 2014 oversamples.

In 2012, the YRBS was administered to 816 students from ten high schools. The 2014 survey was administered to 1,165 students in eight high schools. Students were selected using random sampling procedures provided by the Centers for Disease Control and Prevention (CDC). These procedures include sampling students by school by classroom. All students in selected classrooms who were in 9-12 grades were eligible to participate. Please see Appendix B for estimates of sampling error for the 2014 oversample. The 2014 YRBS survey instrument can be found in Appendix A.

Data were collected, entered, and verified for response eligibility. Responses from 24 students were tagged in the data set as potentially problematic. These students provided five or more out of range answers leading to this tagging. Collected data were not weighted in anyway.

Frequency distributions are presented by the eight areas covered in the YRBS following the Executive Summary. The report consists of tables detailing responses for each answer for each question, presented by gender and grade.

Any questions regarding this report or the data collected can be directed to the Bureau of Sociological Research at the University of Nebraska-Lincoln by calling (402) 472-3672, or by sending an e-mail to *bosr@unl.edu*.

This survey is about health behavior. It has been developed so you can tell us what you do that may affect your health. The information you give will be used to improve health education for young people like yourself.

DO NOT write your name on this survey. The answers you give will be kept private. No one will know what you write. Answer the questions based on what you really do.

Completing the survey is voluntary. Whether or not you answer the questions will not affect your grade in this class. If you are not comfortable answering a question, just leave it blank.
