

CORRECTIONAL FACILITIES PANDEMIC INFLUENZA PLANNING CHECKLIST

Planning for pandemic influenza is critical for ensuring a sustainable health care delivery system within correctional facility settings. The Department of Health and Human Services (HHS) has developed the following checklist to help prison and jail systems to self-assess and improve their preparedness for responding to pandemic influenza. Given the differences among systems, individual facilities should adapt this checklist to meet their unique needs. This checklist should be used as one tool in developing an overall pandemic influenza plan for correctional systems as well as individual facilities. Responsible officials should incorporate information from State, regional and local health departments and emergency management agencies/authorities into the system and individual facility pandemic influenza plan. An additional benefit of this planning is that it can be used for other types of disaster preparedness.

All contact information specified below should include the names, titles, and contact information (i.e., office phone and cell phone numbers and e-mail and physical addresses) for individuals or organizations. These sheets should be provided to the system-level office (for prison and large jail systems). Further information can be found at www.pandemicflu.gov. For information on general emergency planning and continuity of operations, see www.ready.gov.

Develop a pandemic influenza preparedness and response plan

Completed	In Progress	Not Started																					
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Incorporate pandemic influenza preparedness into correctional facility or system disaster planning and exercises. Review Federal, State, and local public health and emergency management agencies' pandemic plans in areas where you operate or have jurisdictional responsibilities. Ensure that your plan is NIMS (National Incident Management System) compliant and align your plan with the local Incident Command System (ICS) and local pandemic influenza plans to achieve a unified approach to incident management. See "State and Local Governments," www.pandemicflu.gov/plan/states/index.html and http://www.fema.gov/emergency/nims/index.shtm .																				
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Assign responsibility for coordinating pandemic influenza preparedness planning to a person with appropriate training and authority. Verify Command and Control areas of responsibility and authority during a pandemic. Develop a plan for back-up if that person becomes ill during a pandemic.																				
			<table border="1"> <thead> <tr> <th></th> <th>Pandemic Influenza Preparedness (PIP) Coordinator</th> <th>Alternate PIP Coordinator</th> </tr> </thead> <tbody> <tr> <td>Name</td> <td></td> <td></td> </tr> <tr> <td>Title</td> <td></td> <td></td> </tr> <tr> <td>Contact Information (Office phone, cell phone, e-mail)</td> <td></td> <td></td> </tr> </tbody> </table>		Pandemic Influenza Preparedness (PIP) Coordinator	Alternate PIP Coordinator	Name			Title			Contact Information (Office phone, cell phone, e-mail)

Elements of an Influenza Pandemic Plan for Each System and Facility Should Include the Following: (continued)

Completed	In Progress	Not Started													
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<p>A plan for surveillance (monitoring) and detection of seasonal and pandemic influenza in inmates and staff (see www.hhs.gov/pandemicflu/plan/sup1.html). The plan should ensure:</p>												
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<p>Develop a written protocol for monitoring seasonal influenza-like illness in inmates and staff (i.e., weekly or daily number of inmates and staff with influenza-like illness). See: http://www.cdc.gov/flu/professionals/diagnosis/. Institute a system for tracking illness trends during seasonal influenza to ensure that the facility can detect stressors that may affect operating capacity, including staffing and supply needs, during a pandemic.</p>												
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<p>Create a protocol for the detection, evaluation, diagnosis and treatment of inmates and personnel with symptoms of pandemic influenza. (see: http://www.hhs.gov/pandemicflu/plan/sup5.html).</p>												
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<p>Institute a system to monitor and internally review transmission of pandemic influenza among inmates and staff in the facility. Information from this monitoring system is used to implement containment measures (e.g., isolation, cohorting).</p>												
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<p>A communication plan. See: http://www.hhs.gov/pandemicflu/plan/sup10.html.</p> <p>Assign responsibility for communication with public health authorities and within the corrections system for planning and response.</p>												
			<table border="1"> <thead> <tr> <th data-bbox="525 681 819 720"></th> <th data-bbox="828 681 1231 720">Responsible Person</th> <th data-bbox="1239 681 1580 720">Alternate</th> </tr> </thead> <tbody> <tr> <td data-bbox="525 720 819 758">Name</td> <td data-bbox="828 720 1231 758"></td> <td data-bbox="1239 720 1580 758"></td> </tr> <tr> <td data-bbox="525 758 819 797">Title</td> <td data-bbox="828 758 1231 797"></td> <td data-bbox="1239 758 1580 797"></td> </tr> <tr> <td data-bbox="525 797 819 896">Contact Information (Office phone, cell phone, e-mail)</td> <td data-bbox="828 797 1231 896"></td> <td data-bbox="1239 797 1580 896"></td> </tr> </tbody> </table>		Responsible Person	Alternate	Name			Title			Contact Information (Office phone, cell phone, e-mail)		
	Responsible Person	Alternate													
Name															
Title															
Contact Information (Office phone, cell phone, e-mail)															
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<p>Develop a list of local hospitals/health facilities, emergency medical services, commercial and clinical laboratories, relevant community organizations (including those involved with disaster preparedness) and update as necessary including points of contact to facilitate communication across organizational lines during pandemic conditions. (Attach a copy to the pandemic plan).</p>												
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<p>Assign responsibility for communication with inmates, staff, and the community regarding the status and impact of pandemic influenza in the facility. Develop a plan for back-up if that person becomes ill during a pandemic. Having one voice that speaks for the facility during a pandemic will help ensure the delivery of timely and accurate information.</p>												
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<p>Ensure that communications are available in appropriate formats for individuals with disabilities (e.g., visual or hearing impairments) and limited English proficiency.</p>												
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<p>An education and training plan. Each system and each facility should develop or obtain an education and training program to ensure that all personnel understand the implications of, and control measures for, pandemic influenza and the current system/facility and community response plans.</p>												
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<p>Designate responsibility for coordinating education and training on pandemic influenza, including identifying and facilitating access to available programs, as well as tracking which personnel have completed the training.</p>												
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<p>Identify existing and potential sources for alternative training options such as Web casts, DVD, CD-ROM and local training programs conducted by the health department, area hospitals, local colleges or trade schools for clinical and non-clinical education for corrections staff. (See: http://www.cdc.gov/flu/professionals/training/).</p>												
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<p>Identify or develop language, format (i.e., prepared for individuals with visual, hearing or other disabilities), and reading-level appropriate materials (e.g., brochures, pamphlets) to supplement and support education and training programs of personnel and inmates. (See www.cdc.gov/flu/groups.htm and www.cdc.gov/flu/professionals/infectioncontrol/index.htm).</p>												
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<p>Ensure that education and training includes information on infection control measures to prevent the spread of pandemic influenza, such as hand hygiene and sneeze/cough etiquette.</p>												
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<p>Pre-identify, perform background checks, credential and train personnel who will be brought in for surge capacity.</p>												
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<p>An infection control plan for managing inmates and visitors with pandemic influenza that includes the following:</p>												
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<p>Create policies and procedures for cohorting inmates with known or suspected pandemic influenza using one or more of the following strategies: 1) Confining ill and exposed inmates to their cells, 2) Placing inmates with symptoms of pandemic influenza together in one area of the facility, or closing off units that have symptomatic inmates. Policies and protocols for restricting staff who are assigned to work on affected units from working on other units.</p>												

Elements of an Influenza Pandemic Plan for Each System and Facility Should Include the Following: (continued)

Completed	In Progress	Not Started	
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Develop policies and procedures for handling intake, influenza screening, processing and placement of new inmates with known or suspected pandemic influenza.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Design an infection control policy for the use of recommended personal protective equipment and infection control measures for staff. (See: http://www.hhs.gov/pandemicflu/plan/sup4.html)
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Develop procedures for implementing respiratory hygiene/cough etiquette for staff and inmates throughout the facility. (See: www.cdc.gov/flu/professionals/infectioncontrol/resphgiene.htm and the Community Mitigation guidance at http://www.pandemicflu.gov/plan/community/mitigation.html .)
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Specify criteria and protocols for appropriately closing the facility to new admissions, including notification of feeder jails and reception (intermediary classification and assessment) centers.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Develop criteria and procedures for transfer of inmates with known or suspected pandemic influenza to hospitals, if it becomes necessary. Policies and procedures for clinical management of inmates who need hospitalization but must remain in the facility due to limited hospital beds.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Plan for discharging released inmates with known or suspected pandemic influenza
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Develop criteria and protocols for limiting non-essential visitors, including an education and communication strategy for visitors, especially those traveling long distances. Include policies and procedures for pandemic influenza screening of all persons coming into the facility.
			A plan for the impact of a pandemic on your employees that includes the following: (See: www.hhs.gov/pandemicflu/plan/sup11.html and the Community Mitigation guidance at http://www.pandemicflu.gov/plan/community/mitigation.html .)
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Develop contingency plans for 30 – 40% employee absences. Keep in mind that absences may occur due to personal illness, family member illness, community mitigation measures, quarantines, school, childcare, or business closures, public transportation disruptions, or fear of exposure to ill individuals, as well as first responder, National Guard, or military reserve obligations.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Identify critical job functions and plan now for to cover those functions in case of prolonged absenteeism during a pandemic. Develop succession plans for each critical agency position to ensure the continued effective performance of your organization by identifying and training replacements for key people when necessary. These replacements should be integrated into employee development activities, and should include critical contracted services as well.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	As necessary, plan for cross-training employees, use of auxiliary personnel and recent retirees, recruiting temporary personnel during a crisis, or establishing flexible worksite options (e.g., telecommuting) and flexible work hours (e.g., staggered shifts) if appropriate.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Develop a mechanism for employees to immediately report their own possible influenza illness during a pandemic (24/7).
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Establish compensation and leave policies that strongly encourage ill workers to stay home until they are no longer contagious. During a pandemic, employees with influenza-like symptoms (such as fever accompanied by sore throat, muscle aches and cough) should not enter the worksite to keep from infecting other workers. Employees who have been exposed to someone with influenza, particularly ill members of their household, may also be asked to stay home and monitor their symptoms.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Employees who develop influenza-like symptoms while at the worksite should leave as soon as possible. Explore the availability of resources for testing for influenza in coordination with local and State health departments. Consult with State and local public health authorities regarding appropriate treatment for ill employees. Prepare policies that will address needed actions when an ill employee refuses to stay away from work. Federal agencies can consult guidance provided by the Office of Personnel Management (OPM) at www.opm.gov/pandemic .
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Develop policies that focus on preventing the spread of respiratory infections in the workplace. This policy might include social distancing practices, the promotion of respiratory hygiene/cough etiquette, and appropriate attention to environmental hygiene and cleaning. (For more information see www.pandemicflu.gov and http://www.pandemicflu.gov/plan/community/mitigation.html as well as OPM's guidance at www.opm.gov/pandemic .)
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Provide educational programs and materials (language, culture, and reading-level appropriate) to personnel on: <ul style="list-style-type: none"> • pandemic fundamentals (e.g., signs and symptoms of influenza, modes of transmission, medical care) See www.pandemicflu.gov, www.cdc.gov/flu/protect/stopgerms.htm, http://www.cdc.gov/flu/protect/covercough.htm, and www.cdc.gov/flu/professionals/infectioncontrol/resphgiene.htm. • personal and family protection and response strategies (e.g., hand hygiene, coughing/sneezing etiquette, etc.). Post instructional signs that illustrate correct infection control procedures in all appropriate locations, including offices, restrooms, waiting rooms, processing rooms, detention facilities, vehicles, etc. See www.pandemicflu.gov, www.cdc.gov/flu/protect/stopgerms.htm, http://www.cdc.gov/flu/protect/covercough.htm, and • community mitigation interventions (e.g., social distancing, etc.) http://www.pandemicflu.gov/plan/community/mitigation.html.

Elements of an Influenza Pandemic Plan for Each System and Facility Should Include the Following: (continued)

Completed	In Progress	Not Started	
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Provide information to employees to help them and their families prepare and plan for a pandemic. See www.pandemicflu.gov/plan/individual/index.html
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Identify employees who may need to stay home if schools dismiss students and childcare programs close for a prolonged period of time (up to 12 weeks) during a severe pandemic. Advise employees not to bring their children to the workplace if childcare cannot be arranged. Plan for alternative staffing or staffing schedules on the basis of your identification of employees who may need to stay home.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Provide training for law enforcement officers, office managers, medical or nursing personnel, and others as needed for performance of assigned emergency response roles. Identify a training coordinator and maintain training records.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Stock recommended personal protective equipment (PPE) and environmental infection control supplies and make plans to distribute to employees, contractors, and others (including detainees) as needed. These supplies should include tissues, waste receptacles, single-use disinfection wipes, and alcohol-based hand cleaner (containing at least 60% alcohol). EPA registered disinfectants labeled for human influenza A virus may be used for cleaning offices, waiting rooms, bathrooms, examination rooms, and detention facilities. PPE may include gloves, surgical masks and respirators (disposable N95s or higher respirators or reusable respirators), eye protection, pocket masks (for respiratory resuscitation) and protective cover wear (e.g., impervious aprons). The specific uses for the above supplies will be advised by State and local health officials during a pandemic. Further information can be found at www.pandemicflu.gov and at http://www.osha.gov/Publications/OSHA3327pandemic.pdf
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Work with State and/or local public health to develop a plan for distribution of pandemic influenza vaccine and antiviral medications to personnel. See current HHS recommendations for pandemic influenza vaccine and antiviral use at http://www.hhs.gov/pandemicflu/plan/sup6.html and http://www.hhs.gov/pandemicflu/plan/sup7.html .
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Encourage and track seasonal influenza vaccination for employees every year. See www.cdc.gov/flu/protect/preventing.htm . Encourage all employees and their families to be up-to-date on all adult and child vaccinations recommended by the Advisory Committee on Immunization Practices. See www.cdc.gov/nip/recs/adult-schedule.htm and www.cdc.gov/nip/recs/child-schedule.htm .
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Evaluate employee access to and availability of health care, mental health, social services, community, and faith-based resources during a pandemic, and improve services as needed. See www.hhs.gov/pandemicflu/plan/sup11.html .
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Develop a plan for managing personnel who are at increased risk for influenza complications (e.g., pregnant women, immunocompromised workers) by placing them on administrative leave, altering their work location, or other appropriate alternatives during a pandemic health crisis, consistent with the EEO laws.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	A vaccine and antiviral use plan, including:
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Refer to web sites containing current CDC and State health department recommendations and guidance for the use, availability, access and distribution of vaccines and antiviral medications during a pandemic. For more information, see: www.hhs.gov/pandemicflu/plan/sup6.html and www.hhs.gov/pandemicflu/plan/sup7.html .
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Develop policies and a plan that addresses prioritization of personnel and inmates to be vaccinated or treated based on the availability of vaccines, antiviral medications, and other limited quantity treatment or prophylaxis, consistent with HHS guidance and State health department recommendations (see: www.hhs.gov/pandemicflu/plan/appendixd.html).
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Establish an implementation plan for rapid delivery of vaccines, antiviral treatments, and prevention strategies for staff and inmates based on the preceding prioritization strategy.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	A plan to address concerns related to surge capacity during a pandemic including staffing and supply issues. The plan should:
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Develop a staffing plan that specifies the minimum number and categories of personnel necessary to maintain the operation of the prison or jail, based on inmate census and the need to provide medical and nursing care in a safe manner.

Elements of an Influenza Pandemic Plan for Each System and Facility Should Include the Following: (continued)

Completed	In Progress	Not Started									
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Assign responsibility for assessing day-to-day staffing and other needs during an influenza pandemic to someone with proper authority and training.								
			<table border="1"> <tr> <td data-bbox="529 247 898 323"></td> <td data-bbox="907 247 1570 323">Responsible Person</td> </tr> <tr> <td data-bbox="529 323 898 355">Name</td> <td data-bbox="907 323 1570 355"></td> </tr> <tr> <td data-bbox="529 355 898 398">Title</td> <td data-bbox="907 355 1570 398"></td> </tr> <tr> <td data-bbox="529 398 898 474">Contact Information (office phone, cell phone, e-mail)</td> <td data-bbox="907 398 1570 474"></td> </tr> </table>		Responsible Person	Name		Title		Contact Information (office phone, cell phone, e-mail)	
	Responsible Person										
Name											
Title											
Contact Information (office phone, cell phone, e-mail)											
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Define criteria for declaring a “staffing crisis” that would enable the use of emergency staffing alternatives.								
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Include protocols for mandatory security and medical staff overtime within applicable State law or system regulations. Assess the value of voluntary emergency staffing agreements, preferably written, with medical and clinical staff members for all-cause disasters prior to implementing mandatory staffing.								
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Address facilities that use contracted medical staffing. Arrangements should be made for voluntary or mandatory crisis staffing on a collaborative basis. Contract providers do not have the same authority as the State to require mandatory overtime, so cooperative planning is necessary.								
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Provide cross training of facility staff to help sustain operating capacity.								
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Include linkages to local and regional planning and response groups to collaborate on addressing widespread healthcare staffing shortages during a crisis.								
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Estimate consumable resource needs (e.g., masks, gloves, hand hygiene products) for approximately six to eight weeks and consider stockpiling these quantities depending on storage capacity, purchasing flexibility, and other facility-specific considerations.								
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Develop a primary plan and contingency plan to address supply shortages, including detailed procedures for the pre-pandemic acquisition of supplies through normal channels as well as procedures for replenishing supplies under crisis conditions.								
			Development of a strategy to help increase health care bed capacity in the community, if feasible. Plans should consider:								
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Identification of potential problems and concerns associated with temporary use of facility space for acute care beds and develop strategies for addressing these issues with both security and medical personnel in advance of need.								
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Identification of areas within the facility that could be used to create additional acute care beds for expanded health care capacity; discuss availability with local and regional planning groups.								
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Signed transfer agreements with hospitals and/or other providers for the facility to accept non-influenza patients, if applicable, to enable hospitals to focus on the most seriously ill patients with pandemic influenza.								
			Development of a strategy for handling and storing increased numbers of deceased persons, including communications plans for contacting appropriate family members or others regarding disposition of remains. The plan should:								
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Address expanding morgue capabilities with local hospitals and other relevant institutions.								
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Identify an area in the facility that could be used as a temporary morgue.								
			Coordinate your plan with other agencies and organizations								
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Review your pandemic influenza preparedness and response plan with key stakeholders inside and outside the agency, including employee representatives, and determine opportunities for collaboration, modification of the plan, and the development of complementary responsibilities.								
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Share preparedness and response plans with other correctional agencies and law enforcement support agencies in your community, region or State in order to share resources, identify collaboration strategies, and improve community response efforts. Develop, review, and modify local and State mutual aid agreements, if necessary. Mutual aid during an influenza pandemic can not be counted on as multiple jurisdictions in a given region may be affected simultaneously and have limited aid to offer.								

Elements of an Influenza Pandemic Plan for Each System and Facility Should Include the Following: *(continued)*

Completed	In Progress	Not Started	
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Coordinate all requests for assistance with the next higher level governmental entity (e.g., local officials coordinate with State officials, State officials coordinate with Federal officials). Coordination is essential to ensure the assets: (1) can be provided in accordance with existing laws, (2) the requested resources are available. During a pandemic influenza, assistance from the next higher level of government may be limited due to competing higher priority demands and the effects of the influenza pandemic on these assets.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Integrate planning with emergency service and criminal justice organizations such as courts, law enforcements, probation and parole, social services, multi-jurisdictional entities, public works, and other emergency management providers (fire, EMS, mutual aid, etc.).
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Security functions are essential during a pandemic influenza. Through your city or county attorney, corporation counsel or other appropriate authority, collaborate with the Office of the State Attorney General to clarify and review security needs and resources available to your facility.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Identify local or regional entities, such as health-care agencies, community organizations, businesses, or critical infrastructure sites, to determine potential collaboration opportunities. This collaboration might involve situational awareness, exercises or drills, or public safety training.
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Collaborate with local and/or State public health agencies to assist with the possible investigation of contacts within a suspected outbreak, the enforcement of public health orders, as well as the provision of security, protection, and possibly, critical supplies to quarantined persons. Each law enforcement agency will need to interact with local, State, county, and tribal public health officials to define the extent of the authorities provided from State legislation, develop procedures for the local initiation, implementation, and use of those authorities, as well as define protections from liability for law enforcement that may arise from quarantine and isolation enforcement. Operational planning must be flexible enough to address all scenarios in an all hazards environment, and in light of emerging infectious diseases.
